In regard to the admission of boys to the Junio Intermediate class there were special difficulties this year as a large number of students with Secondary School Leaving Certificates offered themselves for admission The Principals of the Colleges were at the beginning disinclined to admit more than the number in the preceding year But I did not consider it right that so many of the students declared eligible by the Secondary School Leaving Certificate Board to enter on a College course should be refused admission and in this view the Inspector General of Education was requested to arrange in consultation with the Principals of the two Colleges to admit as large a number of students as possible provided they satisfied the regulations laid down by the University

(2) This necessitated the enter ainment of additional establishment to cope with the extra work in both the Colleges The Central College having reopened on 1st July and the matter having been represented to be very urgent orders had to be issued with the consent of the First Councillor, in anticipation of His Highness's approval sanctioning for this College as a temporary measure an additional tutor on Rs 50-$\frac{10}{2}$-100 and the grant of an allowance of Rs 10 per mensem to each of the two Demonstrators and Re 1 per mensem to each of the six Laboratory attendants, who are required to work overtime by the new arrangements I solicit His Highness's formal sanction to the above

(3) In the Maharaja's College the opening of a new section of the Junior Intermediate class was found necessary and to provide for teaching in this additional class the Inspector General requests sanction, as a temporary measure,

for one year from July 1913, to the following viz -

(1) The appointment of two additional teachers on Rs 50 to fill the places of two teachers to be transferred to the College out of the existing staff, and to the continuance of an allowance of Rs 30 per mensem to each of the Logic teachers in the Maharaja's and the Maharani's Colleges

(2) The appointment of an additional Hindustani and Persian Munshi on R 25 per mensem

(4) These recommendations of the Inspector General which are supported by the First Councillor may be kindly approved

(5) As regards the allowance of R 15 per mensem recommended to the Persian Munshi on the score of his having to do higher work and more work further enquiry will be made as to whether he will have extra work after the appointment of the additional Munshi now proposed to be sanctioned

(44) From the statement it appears that the Moulvi has got only 5 students 2 in S I A., one in J I A I & two in in J. I. A II

– His sole duty now consists in teaching Persian & Urdu to these 5 boys

When J A I has vernacular class J A II may have same upper class

A { Why the boy in J I A I and the two boys in J. I. A II cannot be taught together is not clear.

There are no B A students –

The Moulvi draws Rs 48/- in the grade of 45–3–60 and has to earn several annual increments before reaching the maximum.

The Apptt of another Maulvi has reduced the Moulvis responsibilities. Formerly a second language was compulsory, now it is not so and many boys do not take a second language.

In these circumstances there is no case whatever for the local allowance.

In fact if the boys at A can be taught together the Moulvi has very little work and the apptt of the other man to relieve this Maulvi of his short work was superfluous. JM 18/5

I have the honour to forward herewith the application of Mr Sultan Mahomed Khan Hindustani and Persian Munshi of this College and to inform you with reference to your No 1931-5/228 dated 11th August 1913 that (1) before the introduction of School Final Examination and new University Regulations the Munshi had work for 10 hours a week in the school Department and 4 hours a week in the College Department and he was teaching only one language either Hindustani or Persian to all the students Subsequent to the introduction of School Final Examination and New University Regulations the number of working hours in the school is raised to 18 hours a week and that in the College to 25 and in some cases two languages are taught to the same students The work is distributed thus - 22 hours for Mr Sultan Mahomed Khan and 20 hours for Mr M Syed Dastagir (2) the large number of difficult text books prescribed for the College classes entails upon the Munshi a good deal of preparation at home (3) all the responsibility lies with himself whereas the Kanarese and Sanskrit Munshis work under qualified graduates (4) he has done excellent work in the past and some of his students took a First class in the B A Examination

From these points it is evident that the Munshi's work is heavier than before in spite of having an Assistant and I am of opinion that he is deserving of the increment already recommended

With reference to your letter No 12735/1344 of the 1st April 1914 I have the honour to furnish the following information about the working of Mr Sultan Mahomed Khan Persian and Hindustani Munshi of the College

1913-14

1 S I A	No of students learning -

	Urdu Composition	1
J I A II	Persian	2
	Urdu	2
	Urdu Composition	1

2 Before the introduction of the new University Regulations the students had to take only <u>one Language</u> as their second Language Now the new Regulations give scope for the selection of <u>two languages</u> and thus the Mahomedan students find convenient to take up Urdu and Persian in Group III of the Intermediate course just as Hindu students sometimes prefer to take Sanskrit and Kanarese as their optional subjects These

languages

(16

languages along with any other subject - Logic or History - constitute Group III

As it was compulsory formerly to take a Second Language the General Time Table had to be arranged in such a manner as to provide common hours to all the students of the class so that there used to be 2 or 3 hours' work a week for one class As the Languages are now made optional subjects more time has to be allotted to them and two languages mean twice the number of hours So the number of working hours in each of thr three classes (two divisions of the Junior I A and S I A) has increased This accounts for the increase of the number of working hours

Another reason for the fewer working hours under the old Regulations was that there was only one Munshi who had to work both in the School and College Departments Hence the number of working hours in the College classes was small Now Mr Sultan Mahomed Khan takes up only the College classes (S I A and J I A) and thus the working hours have increased

3 The present pay of the Munshi is Rs 48/-
